NOTE 1: Extremely Low Income: Effective July 1, 2014, the statutory definition of Extremely Low Income (ELI), formerly the 30% of AMI income targeting standard, was changed. The new definition is: "ELI families are defined as very low-income families whose incomes do not exceed the higher of the Federal poverty level or 30 percent of Area Median Income." As a result, in some Massachusetts income limit areas, where the 30% of AMI limit would otherwise be less than the comparable poverty limit level, the income limit for some family sizes are increased. The Federal "poverty level" refers to the Poverty Guidelines as published and periodically updated by the Dept. of Health and Human Services. The most recent update was published [1/15/2026](#).
